ABOUT US

AVerMedia

AVerMedia Technologies specializes in digital video and audio technology. We provide cutting-edge, high-quality audio and video peripherals, professional capturing and streaming solutions, Edge AI technology, video collaboration solutions, and more. Our mission is to provide an enriched user experience and effective communication in education, content creation, and video communication via innovative and eco-friendly solutions.

WHY CHOOSE AVERMEDIA?

With more than 30 years of invention and innovation, we maintain our market leadership by turning our digital audio and video technologies into devices that empower your workspace while increasing business mobility and productivity.

ENVIRONMENTAL & SOCIAL RESPONSIBILITY

For AVerMedia, environmental protection is a long-term commitment. We have a comprehensive environmental management system and have acquired Green product partner certification, so our customers can be assured that our products are made with the least possible amount of carbon emissions.

In addition, we have been holding Clean Earth events every year since 2002, in order to provide a good example for our communities.

AVERMEDIA'S SOLUTIONS ARE DESIGNED TO MEET THE NEEDS OF MODERN WORKSPACES

"In recent years, many of us have experienced working off-site for an extended period of time. We have begun what is commonly referred to as a shift from office-based to hybrid work. While this change in location has created its logistic challenges, what's truly meaningful is not that we're working from home several days a week, but that we've embraced a digital way of working. We traded paper and pencil, face-to-face meetings and gatherings for video conferencing apps such as Zoom, Teams or GoogleMeet, shifting work from the physical world to the digital world.

Vloggers, Influencers, Youtubers, Instagrammers, Vtubers... the new digital era has also raised a multitude of new professions. A home, a bedroom suddenly became a work space that needs to be

equipped with proper devices and this creates new needs in a market in full transformation.

At AVerMedia, we are committed to providing the most advanced solutions for this major change in hybrid work and workspace. Our product lines are designed with one goal in mind: to empower digital and collaborative work. We are committed to addressing the needs of the market while remaining true to our core values of social sustainability and respect for our environment.

Our product range is continuously enriched with new products, and throughout Europe we are building our presence in all markets. AVerMedia will always be your ally and best partner."

EMPOWERING YOUR WORKSPACE

Our goal is to empower your workspace by maximizing productivity and efficiency with unrivaled ease of use for users — turning any space into creative canvas as well as an instant collaboration hubs.

CORPORATE

The smaller meeting spaces need only simple hardware solutions that easily deploy and manage. Rather than installing and integrating separate meeting peripherals. With AVerMedia products you can plug in and play, and get ready to cooperate with your remote teams.

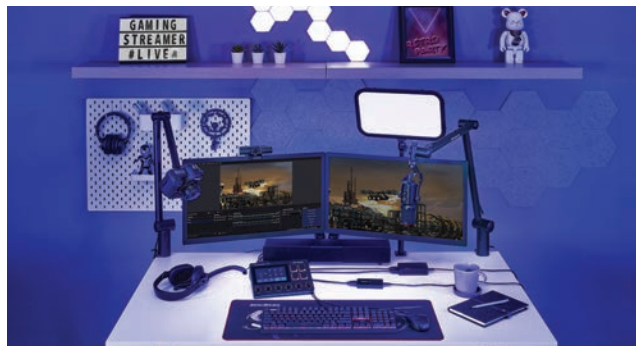

HYBRID

The trend of hybrid working have closed the gap between the way people work. Nowadays traditional employees, educators as well as content creators both would need in some way or another to collaborate remotely with their team and/or students.

EDUCATION

AVerMedia supports educators in leading the digital transformation of education. We offer professional tools to help them create exciting interactive lessons that improve student engagement at home, or in classroom effectively.

GAMER

Whether you're getting comfortable in your zone, or looking to get some extra firepower for your setup, find some AVerMedia gears that'll set you apart from the rest. Control at your fingertips, stream like a boss.

VTUBER

Vtuber or Virtual YouTuber is an online entertainer who uses a virtual avatar generated using computer graphics. With AVerMedia products you can equip your set up, select your avatar and start streaming.

CORPORATE SOLUTIONS

EMPOWERING YOUR WORKSPACE

EMPOWERING YOUR WORKSPACE

SOFTWARE

Bringing you the best possible user experience.

CAMENGINE 4

CamEngine is designed exclusively for the AVerMedia webcam series. It allows you to customize video settings and access a full suite of features the webcam has to offer.

- Filters and virtual backgrounds.
- ePTZ and auto framing controls.
- AI-powered audio noise reduction, and more.
- With CamEngine's built-in Intel® Deep Link Technology, the applications can utilize Intel CPU's integrated GPU and Arc GPU to optimize the computer performance.
- CamEngine combines face recognition and composition algorithms and has more flexibility than the built-in features of a typical conferencing software.

Note: Function availability may vary depending on the webcam model.

CONNECT

Rapid and Effective Deployment Device Management Software.

Connect is a simple and intuitive software that allows you to manage devices easily. Provides image preview, image adjustment, digital zoom, image mirror/flip, AI adjustment and firmware update to enhance your video calls.

We are the first webcam brand that cooperated with Intel® and integrated their Deep Link technology into our CamEngine software delivering intelligently-boosted performance.

EDUCATION SOLUTIONS

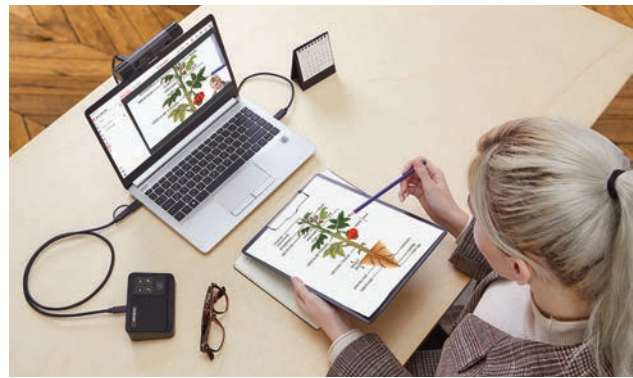

HYBRID TEACHING

Helping teachers engage with students in the classroom or at home is easier than ever.

ROTATABLE DUALCAM PW313D

- The PW313D allows teachers to simultaneously stream both teaching materials and themselves.
- Empowering teachers to create engaging lessons and virtual demonstrations for remote, hybrid, and in-person students alike.

EMPOWERING YOUR CREATIONS

PROFESSIONAL STREAMING SOLUTIONS

ADVANCED STREAMING SOLUTIONS

LIVE STREAMER AX310

With a 6-track audio mixer and a fully customizable control panel, the Live Streamer AX310 allows for full control over the live creation process.

- Control and monitor all 6 tracks in real-time.
- Dual Mix: different audio for yourself and your audience.
- 5" IPS screen shows follower, subscriber, live chat, and more.

Perfect for streaming with a DSLR Camera

DSLR 4K CAPTURE CARD BU113

The external, uncompressed 4K60 video capture device simply hooks up your video camera or camcorder and unleashes the power of camera recording.

- Record 4K30 uncompressed video.
- DSLR video capture: turn your video camera into a webcam.
- Live stream on to go via a mobile device with our Live Streamer app.

NEW

LIVE STREAMER MIC AM350

- All-Metal Build.
- Zero-Latency Monitoring.
- AI Noise Suppression.
- Built-in Pop Filter.
- USB Type C Interface.

LIVE STREAMER 4K CAM PW513

The 4K UHD Sony® Exmor™ CMOS optics captures 4K 30 fps video for ultra sharp and high-quality images.

- Premium 4K lens delivers crystal-clear videos.
- 94° ultra-wide angle FOV covers more landscape.
- CamEngine AI framing for auto positioning images.

LIVE GAMER 4K GC573

Live Gamer 4K (LG4K) is the embodiment of what next generation of game capture is all about.

- Capturing 4K60 HDR.
- Refresh rates of up to 240 Hz in Full HD.
- RGB Lighting and high level of connectivity.

LIVE STREAMER ARM BA311

The Live Streamer ARM can go from boom arm to low profile in seconds. With 7 axes and 360° free stretch, you can position it either horizontally or vertically.

- The triple joint with two-way rotation allows for more orientations.
- High-quality innerspring system holds capacity up to 4 lb (1.8 kg).
- Discrete cable management for a clean setup.

LIVE GAMER ULTRA GC553

Brings 4K capture to the table. This compact device can pass through high refresh rates of up to 240 Hz on a Full HD signal.

- 4K60 HDR video pass-through.
- Capture up to 120 fps for FHD signals.
- Stream on multiple platforms at the same time with RECentral Multistream.

LIVE STREAMER MIC AM330

The Live Streamer MIC 330 is less sensitive to ambient sound sources and only picks up sounds in front of it, allowing it to focus on what is important—your voice.

- Dynamic cardioid XLR mic.
- Tuned to boost mid to mid-high range frequencies.
- All-metal body for better acoustics.

LIVE STREAMER POP FILTER BA310

- Exclusively designed for AVerMedia microphones for removing plosives.
- Metal mesh, crafted with high-quality steel.
- Can be easily detached and washed.

LIVE STREAMER 4K CAM PW513

The 4K UHD Sony® Exmor™ CMOS optics captures 4K 30 fps video for ultra sharp and high-quality images.

- Premium 4K lens delivers crystal-clear videos.
- 94° ultra-wide angle FOV covers more landscape.
- CamEngine AI framing for auto positioning images.

LIVE GAMER 4K GC575

The GC575 4K capture card is the ultimate solution for high-quality gaming video capture and streaming. With its next-gen HDMI 2.1 input, it supports up to 4K144 HDR/VRR and captures video up to 4K60 for seamless recording and streaming.

- HDMI 2.1 input and passthrough with zero latency up to 4K144 for an unbeatable gaming experience.
- Easy recording and streaming of console gameplay through your PC or laptop.

LIVE GAMER 4K GC553G2

NEW!

GC553G2 (GC553 next gen.) - the ultimate video capture device for gaming enthusiasts. With HDMI input up to 4K144 HDR/VRR and 4K60 video capture output through UVC/UAC, easily record and stream console gameplay, mobile, iPad, or DSLR footage through your PC or laptop. Plus, its 3.5mm analog Mic in/out ensures optimal audio quality.

- HDMI input up to 4K144 HDR/VRR and 4K60 video capture output for high-quality video recording and streaming.
- Easily record and stream console gameplay, mobile, iPad, or DSLR footage through your PC or laptop.

BASIC STREAMING SOLUTIONS

The basic kit to kick start streaming your console game play.

1080P 60FPS WIDE ANGLE WEBCAM PW315

The PW315 brings 1080p60 video and wider capturing angles with a 95° lens, delivering greater flexibility when setting up the perfect angle.

- FHD 1080p 60 fps video.
- 95° wide angle FOV lens with privacy shutter.
- Flexible, 360° swivel design.

LIVE GAMER MINI GC311

The LGM keeps things as simple as possible with HDMI in and passthrough for zero latency Full HD gameplay and micro USB for PC or Mac connectivity.

- 100% zero latency Full HD pass-through.
- Built-in H.264 hardware encoder.
- Pocket size, plug-and-play UVC device.

All you need to stream your favourite consoles Full HD Games:

Nintendo Switch / PS4 / Xbox One

LIVE GAMER EXTREME 3 GC551G2

Capture uncompressed gameplay video in high detail, and with the support of up to 4K30 on a 4K 60Hz monitor.

- Support variable refresh rate pass-through for tear-free and stutter-free gameplay.
- Ultra-low latency through to the streaming signal.
- Stream on multiple platforms at the same time with RECentral Multistream.

All you need to stream High Def 4K Games:
PS5 / Xbox Series X

LIVE STREAMER MIC AM310

Ideal for recording podcasts or voice-over, the AM310 records crystal clear vocals without the need for any extra mixers or amps.

VTUBER SOLUTIONS

Bring your avatar to life in this new innovative way to stream your game play.

LIVE STREAMER ARM BA311

IF Design award winning Live Streamer ARM can go from boom arm to low profile in seconds. With 7 axes and 360° free stretch, you can position it either horizontally or vertically.

LIVE STREAMER MIC AM330

IF Design Award winner Live Streamer MIC 330 is less sensitive to ambient sound sources and only picks up sounds in front of it, allowing it to focus on what is important—your voice.

LIVE STREAMER CAM PW513

Share your virtual game world with you at its center as your very own VTubing character. The brand new Vtube function of the CamEngine supports seamless motion and face tracking without any additional equipment with AverMedia PW513.

LIVE STREAMER POP FILTER BA310

Built for AverMedia Microphone AM330, the AverMedia Pop Filter features a steel mesh fine tuned for diffusing plosive sounds of your speech.

LIVE STREAMER AX310

With a 6 track audio mixer and a fully customizable control panel, the IF Design award winner Live Streamer AX310 will ensure you have full control over the live creation process. Be more productive, create more efficiently, master your content.

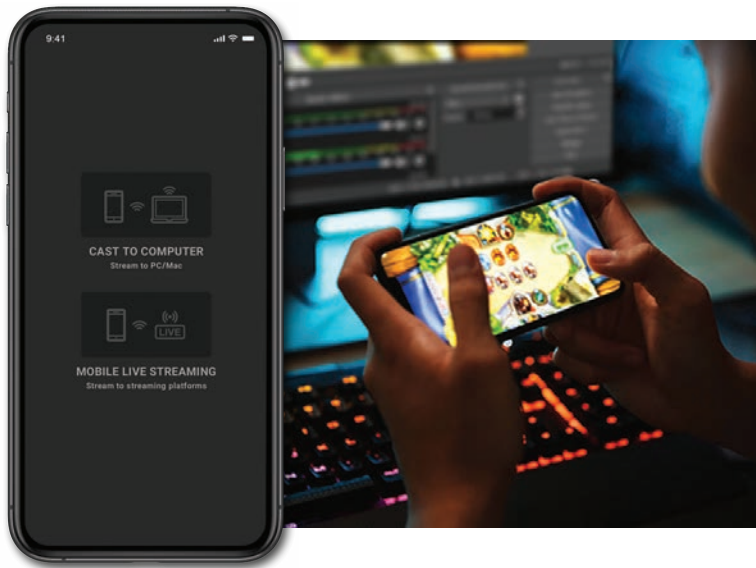

SOFTWARE

Solutions to stream in the most popular streaming platforms.

LIVE STREAMER

Live Streamer is a powerful, feature-packed streaming app for mobile devices. Share your story with the world, anytime and anywhere.

RECENTRAL FOR WINDOWS

Stream, record and share with complete control over those configurations that matter to you the most. RECentral is a powerful yet user-friendly live streaming and recording tool here to help you produce and give rise to your greatest video creations in the simplest way.

RECENTRAL EXPRESS FOR MAC

Stream, record and share your gameplay now on Mac with RECentral Express. Just like the RECentral for Windows, RECentral Express is equipped with many powerful recording and streaming capabilities to help you deliver amazing videos that raise you above the crowd. It's the perfect software for live streaming on Mac.

Max Pass-Thorough Resolutions	2160p60 / 1080p60	1080p60	-	2160p60 / 1080p60
Max Record Resolutions	1080p60	1080p60	2160p30/ 1080p60 HDR	1080p60
Record Format	"MPEG 4 (H.264+AAC) / MJPEG / Supports hardware encoding"	"MPEG 4 (H.264+AAC) / Supports hardware encoding"	-	MPEG 4 (H.264 + AAC) or (H.265 + AAC)
System Requirements	Windows® 10 or later / 8.1/ 7 MacOS (Support UVC Protocol)	Windows® 10 or later MacOS	Windows® 10 x64 MacOS 10.14 or above	-
Designed for	Live Streaming / Vtuber	Live Stream Beginner	Camera Live Streamer	Live Stream

Model	AM350	AM330	AM310
Type	Condenser microphone	Dynamic	Condenser Electret
Polar pattern	Cardioid, omnidirectional	Cardioid	Cardioid
Sample rate	Up to 96 kHz	–	48 kHz
Resolution	Up to 24-bit	–	16-bit
Sensitivity	-41 dB	-52 ± 3 dB	-60 ± 5 dB
Frequency response	20Hz- 20KHz	50–18KHz	20–20KHz
Monitor	Yes, 3.5mm	–	Microphone input / System audio (Either one)
Connector	USB	XLR	USB
OS	Windows & Mac	–	Windows & Mac
Designed For	Podcasting, Singing, and ASMR	Broadcast/ Podcast/ Bring studio audio quality home with affordable price	Best consumers budget, with best result

Model	AX310
Audio Channels	6 Tracks (3 physical input + 3 virtual tracks)
LCD Screen	5" Touchscreen
Physical Buttons	4
Physical Knobs	6
Interface	XLR
Designed For	USB 2.0 (Type B) x 1 Optical In x 1 3.5mm Line In x 1 XLR (Balanced) / 6.3mm (Single-End) Mic In x 1 3.5mm Headphone Out x 1 3.5mm Line Out x 1
Audio Mixer	○
RGBs	○

Model	BA311
Boom Arm Type	Tube-style aluminum
Max Horizontal Rotation	360 degrees
Max Vertical Rotation	135 degrees
Cable Management	Built-in cable management
Main Features	Unmatched Flexibility Discrete Cable Management Easy Installation with C-Clamp Hold up to 1.8kg (3.6lb) Good for Microphone / Camera / Tablet
Weight	Arm - 1.4 kg (50.9 oz) C-Clamp - 0.4 kg (17.3 oz)
Microphone and Tablet Adapter	5/8" Thread for Microphones 1/4" Thread for Camera / Tablet
Design for	Live Streaming / Video Recording

EMPOWERING YOUR WORKSPC

AVerMedia's goal is to empower your workspace by maximizing productivity and efficiency with unrivaled ease of use for users—turning any space into creative canvas as well as an instant collaboration hub.
